EDUCATION

Bachelor Of Engineering In I.T.
Vadodara Institute of Engineering
- Current CGPA 7.5

Senior Secondary (XII), Science
Sorath International School
- Percentage: 50.76%

PROFILE

As a beginner web developer, I am a fast learner with a passion for coding and an eagerness to work in a team environment. My technical skills include HTML, CSS, JavaScript. I have experience building responsive and accessible websites, and I am proficient in using version control tools like Git.

PROJECTS

Weather App

Developed a user-friendly weather app website that provides real-time weather information for cities worldwide. Integrated reliable data sources and APIs to ensure accurate forecasts for temperature, humidity, wind speed, and precipitation. Created an intuitive interface for easy city search and seamless access across devices.
